Part of one of our extensive fields of Evergreens

Front Page News

Each year we call your especial attention to a group of trees of exceptional merit.

We take pride in their strength and beauty, and make the just claim that there are none better grown than ours in New England.

UPRIGHT JAPANESE YEW (See page 10)

“Never say die” is rightly applicable to the Japanese Yews, for they are unaffected by the severity of our New England climate.

Add to this hardiness their resistance to disease, year round deep blue-green color, varieties of shape, and you have the most thoroughly satisfactory evergreen available.

We consider our rows of Yews the pride of the Nursery. We invite your inspection and welcome comparison.

LILACS ALONG A GARDEN PATH

You had thought of landscaping your grounds to make them BEAUTIFUL. Had you thought of landscaping them to make them USEFUL?

Check the ideas that appeal to you and then ask us to help you work out the plan, without OBLIGATION OR COST TO YOU.

I'd like to have

1. A windbreak of hemlocks or arborvitae to stem the sweep of chill north winds.
2. An enclosure for the clothes yard.
3. Tall trees to cut off an unsightly view.
4. A miniature orchard so that the swinging shelf may be well stocked with jellies to appease winter cravings.
5. A woodsy nook with an out-door fireplace for the informal entertaining of friends.
6. A playground where the vitamin D of sunshine will bend its rays upon my children.

FLOWERING CRAB (See page 21)

THE LANDSCAPE DEPARTMENT

Our planting designers are the key men in our landscape organization. Upon their knowledge and skill in arranging and grouping plant types depend the finished picture of the home.

One would not think of building a house without skilled carpenters and plans to go by. So our organization not only has trained men for developing plans but a carefully trained and supervised planting department to execute the plan and ideas approved by you.

These men know that each place must be treated individually. The planting treatment must be designed to bring out and accentuate the existing charm.

In order that the designer may do effective work, he must have a reliable organization back of him. We are justly proud of the type of men in our service. Some have been with us for over twenty years.

Here are a few reasons why we are qualified to help you:

1. Fifty acres of trees, shrubs, perennials, and evergreens to choose from. A perusal of this price list shows you the wide variety offered.
2. Over forty years experience as a background to help solve your problems.
3. An up-to-date and thoroughly equipped landscape department.
4. An experienced and dependable personnel. Our men remain with us year after year.
5. A liberal guarantee. See page (64).

Hardy Perennials

As the best effects are usually obtained by planting Perennials in groups of not less than three, we are offering them in that quantity, rather than singly. If only one plant is desired, the price will be one-third the rate for three.

Please note that five or more plants will be priced at the ten rate, and twenty-five or more at the one hundred rate.

Varieties marked with an asterisk (*) are especially adapted for the Rock Garden.

Key to abbreviations used for color, height and period of bloom:

B-Blue, P-Pink, R-Red, W-White, Or-Orange, La-Lavender, Pu-Purple, Vi-Violet, Y-Yellow.

Ap-April, My-May, Jn-June, Ju-July, Au-August, Se-September, Oc-October.

QUANTITY OF PLANTS FOR FILLING BEDS

Our table is based on round beds, the outer row being planted one-half the distance from the edge that the bulbs or plants stand apart. For a square bed, add 25% to the number required for a round bed of the same diameter. For an oval bed, length and width is to be added and then divided by 2, thus: 8 and 6 feet equals 14 feet, divided by 2, gives 7 feet. Such a bed requiring the same number of bulbs or plants as a round bed 7 feet in diameter.

Diameter of Round Bed	Planted 4 in. Apart	Planted $\frac{1}{2}$ ft. Apart	Planted 1 ft. Apart	Planted $1\frac{1}{2}$ ft. Apart	Planted 2 ft. Apart
